About Me

I am a motivated and intermediate skilled programmer with a strong background in application development. My expertise lies in web design and backend development to excel at fulfilling client demands. I am eager to expand my knowledge and skill set by working with more clients.

Projects

ONLINE FOOD ORDER SYSTEM

- The Online Food Order System is a comprehensive web-based application. In this project, I used PHP for server-side processing, HTML and CSS for front-end design, and JavaScript for interactive functionalities.

PERSONAL PORTFOLIO

- Created a dynamic personal portfolio website using HTML, CSS, JAVASCRIPT and APP-SCRIPT to showcase projects and skills interactively.

Slot Machine

- Self-made project to understand javascript and learn javascript.
